

CANALS TRANSPORT DE VIATGERS S.L. is one of the oldest coach companies established in Costa Brava. Our roots date back to 1941 although the company was refounded in 1993 by the current managers. We own and operate a fleet of 30 coaches from our two depots located in the heart of famous Costa Brava (Lloret de Mar) and in the heart of Costa de Barcelona-Maresme (Pineda de Mar).

Our company is specialized in the tourist industry, covering the services of the main tour-operators coming from all over Europe, Canada and the United States. Our services range from the excursions around our fantastic region (Barcelona, Girona, Figueres and Dali Museum, Carcassonne in the south of France, Monaco and Montecarlo in the Côte d'Azur...) to the European and Spanish tours, transfers from Barcelona and Girona airports to the main resorts in Costa Brava and Costa de Barcelona.

Our fleet ranges from the 16-seater minibus, 55+1 standard coach, 59+1 (13 meters long) coach to the jewels of the fleet: 71+1 seats (15 meters long). All the coaches are fitted with a system that monitors their movements 24 h, including the speed and the current position, besides the standard equipment: DVD, double-glazing, air-conditioning, seatbelts and reclining seats, huge luggage boot. Average age of our fleet stands as one of the lowest in the region.

Our drivers have a long experience at the wheel, with a long and splendid record in our company. Our depots are well equipped with all the necessary resources to maintain the coaches in the best condition. Daily cleaning and checking are a must for our staff.

Contact us and be sure to work with the best company!
